Technology that ships. Strategy that sticks.

Technology consultant with four years at EY advising Fortune 100 clients across consumer, retail, health, and public sectors — combining hands-on engineering depth (cloud reliability, observability, quality at scale) with consulting skills in AI strategy, customer service transformation, and go-to-market.

MEASURED IMPACT

EXPERIENCE

- Senior Consultant — Customer Service Transformation** Jun 2025 – Present
EY Studio+ · Chicago · Consumer, Retail & Health
 - Quality engineer across four cloud-services products for a Fortune 100 restaurant chain — deployments, feature validation, on-call support.
 - Cut deployment incidents 20% via release safety protocols, pre-deployment risk patterns, and standardized rollbacks.
 - Built an observability framework from scratch (structured logs, dashboards, diagnostics), cutting MTTR 15% for on-call teams.
 - Authored contact center AI points of view for two Fortune 500 healthcare clients, shaping pursuit strategy and client workshops.
- Consultant — Digital & Emerging Technologies** Jul 2022 – Jun 2025
EY · Chicago · Consultant Development Program
 - Led QE through a chainwide order fulfillment platform launch across 100+ restaurant locations — routing efficiency +30%, bug turnaround -25%.
 - Helped redesign the in-store order-taking experience on a new device, then rotated to the counter / drive-through tablet team — owning integration testing between the two products.
 - Built 20+ JMeter performance scripts with US and India teams, improving shipping API reliability 15% for a major e-commerce launch.
 - Coordinated agile delivery on a federal cloud implementation — ceremonies, feature KPIs, and NIST 800-53 framework recommendations.
- IT Leadership Intern — IE Business Solutions** Jan 2021 – Dec 2021
SAP America · Remote
 - Partnered with the Chief Product Owner on portfolio delivery across Germany, the US, and India — OKRs, blockers, on-time increments.
 - Facilitated design thinking workshops with 50+ stakeholders; UX research informed SAP FlexConnect design decisions.
